Now that you have completed the **correspondence** unit 1156 'Drain sports turf areas', this **on job** component of the unit covers the maintenance of your sports turf facility. Your Turf Manager will also need to be present in order to assess your performance.

**You may also provide your assessor with additional evidence such as diary records and photos if applicable.**

**Install a pipe drain.**

What tools did you use to dig your trench?

Draw a diagram of your drain and label length, depth, %fall or ratio, pipe size, bedding and backfill used..

How did you install the backfill without contamination?

What positive outlet is your trench excavated to?

How did you restore the turf surface to prevent sinkage?
