Now that you have completed the **correspondence** unit 1166 'Irrigate sports turf areas', this **on job** component of the unit covers the maintenance of your sports turf facility. Your Turf Manager will also need to be present in order to assess your performance.

You may also provide your assessor with additional evidence such as diary records and photos if applicable.

Maintain an irrigation system.

Describe how you would **check** and **service** the following components prior to the irrigation season.

Screens:

Filters:

Pumps:

Describe how you would **check** and **service** a faulty sprinkler head.

Attach a photo or draw a dismantled sprinkler head labelling all parts.

Irrigation systems may need to be drained e.g freezing, repairs. Describe how you would drain **your** system if you had to?

What weekly checks are made during the irrigation season?

How would you repair a leaky pipe?

What common spare parts are kept in stock and who are they purchased from?

Describe your employers purchasing procedure
